A NOTEBOOK IS A PLACE FOR SELF-REFLECTION AND SELF-DISCOVERY

FLEX NOTEBOOK
ST2401BK

A classic notebook is a diary, which has enough space for sketching and taking notes, suitable for architects, painters, teachers, college students, etc. Can be used for daily reminders, personal journals, sketchbooks or travel journals.
ANY PEN TYPE OF NOTEBOOK - You can sketch, doodle and write on this handmade leather journal using ink pens, pens, brushes and ballpoint pens, or you can even do acrylic and watercolor paintings.
The notebook is heavy, please handle it with care to avoid cracking and damage. A diary that keeps a diary can be used for a whole year. Many pages are perfect for writing, drawing, accounting, taking notes, sketching, pasting photos or capturing your fond memories

Pages: The cover is made of waterproof PU leather with a fine texture. Smooth to the touch with a modern minimalist style. The overall size is A5: 145x210 mm, horizontal line, easy to write, easy to carry.

Binding: Strong, perfect binding, use more than 120 pages of high-quality paper to avoid ink spreading and leakage. Easy to open and close notebook/journal. After opening, it can be placed horizontally at 180°, and some inserts and documents are fixed with elastic cords. Convenient and practical

WATER BOTTLE WITH CORK COVER AND BAMBOO LID

GWB101CR

Description

Well-designed and sustainable glass bottle for cold drinks. The lid is made of bamboo with plastic screw thread and braided strap.

A durable and eco-friendly hot or cold beverage container – the cork handle keeps your hot beverage warm – or your cold beverage cold. A climate-friendly and cheap giveaway for trade shows and events.
The glass part is suitable for dishwasher and microwave.
The bottle is Approved for food contact and 100% BPA free.

Glass is a sustainable recyclable material that is made from true recycled glass waste. Large amounts of energy are consumed for both manufacturing and recycling, so the degree of sustainability depends on the energy source in the manufacturing process. Glass does not pollute when disposed. Bamboo is an extremely sustainable biodegradable material, with extremely fast regeneration when harvested. Bamboo, like other natural products, functions as a CO2 depot throughout the products lifetime. Cork is an extremely climate-friendly, biodegradable and compostable natural material that originates from cork oak. Cork is a rapidly regenerating resource that can be harvested every year from the same tree.
